## McPherson is Live Topic

Openly declaring that one of the reasons why he had been compelled to change his allegiance from the Brownlee government was the failure of the Premier to demand the resignation of Hon. O. L. McPherson, minister of public works, and stated that he had the approval of his constituents in this stand, as the latter "disapproved and condemned" the retention in the cabinet of the minister named, Omer St. Germain, member for St. Albert, who crossed the floor of the house at the opening of the present session and joined the Liberal ranks, on Thursday afternoon made his promised explanation of his action to a crowded house.

Speaking for two hours the St. Albert member gave a full and complete history of his actions since being elected a U.F.A. supporter, and there was a breathless hush as he finished with a ringing denunciation of the premier for failing to reorganize his cabinet in view of the promises made along this line.

"For the past two sessions this matter has been brought to the attention of the premier both by members on his own side of the house and by the opposition and the premier has assured us that he would give attention to the reorganization of his cabinet," he said. There are some things one hesitates to say, although they are on the lips of the people everywhere. One hates to cause pain, but there is an old saying, "The Lord hates a coward," and as I want to be loved by the Lord, and I feel deeply and sincerely on this matter, I feel compelled to say that I am sorry indeed that the premier has seen fit to retain Hon. O. L. McPherson in his cabinet, and when I say this, painful as it may be, I am voicing the sentiments of my constituents who approve of this stand.

Hon. O. L. McPherson was in his seat in the house as the St. Albert member made his dramatic declaration, but no word was spoken as Mr. St. Germain finished his address and sat down. A few minutes later, however, the minister arose and unobtrusively left the chamber.

The straightforward declaration of Mr. St. Germain followed close on heels of a challenge for the government leader to make known his stand on the C.C.F. and to whether the government was not a C.C.F. government in word and deed. After denouncing the C.C.F. as being a "communist party with a Communist philosophy," Mr. St. Germain referred briefly to the resolutions passed at the last U.F.A. convention in Edmonton allying that organization with the C.C.F. and also to the activities of members of the legislature on the government side who had been active in fostering the C.C.F. movement.

At the beginning of the last session the member for Camrose, in seconding the adoption of the Speech from the Throne, expressed his admiration for the socialistic program of the C.C.F., he said. "I presume that as he was a government spokesman on that occasion the government approved of his attitude. Other members of the government side have also openly endorsed the C.C.F. policy and even the Premier has attended meetings with the leaders of the party. If his presence at those meetings is not an endorsement openly of the C.C.F. policies, at least it does not look well. And then we have the honorable member for Lacombe, a member of the cabinet itself, expressing his adhesion to the ideal of the C.C.F. philosophy. The honorable lady is a minister of the crown and her declaration of endorsement constitutes without the shadow of doubt, the policy of the Brownlee government with regard to the C.C.F. principles."

Mr. St. Germain pointed out that while at the last session back benches on the government side had been strong in their support of the C.C.F. at this session little was heard of the matter.

"What is the reason for his silence?" he asked. "I want the government to answer this question. This is a vital and important matter to the people of Alberta. They have a right to know where the government stands regarding the C.C.F. especially as during the last U.F.A. convention a resolution was passed practically

forcing the C.C.F. program on the government. At that time the clandestine marriage of the weary U.F.A. mother with her fiery C.C.F. son was solemnly performed by the spokesmen of the C.C.F. in presence of the silent members of the government, who seemed to be happy and satisfied with this unholy matrimonial union.

"Since I have taken issue with the government on these matters, and have crossed the floor of the House, I have been asked to resign by supporters of the government, the reason given being that I have switched my allegiance."

There is no moral or legal obligation on my part to resign. I have not changed. I was elected as a supporter of the U.F.A. policies, but is the government any longer a U.F.A. government? Why should I resign because the government has changed its policies? It is the government which should resign. It was elected on U.F.A. principles but now it has adopted the C.C.F. platform and it should resign and go to the country to find out whether the people approve of this change. We have heard much from the government of how it stands with the people, and if the Premier is so sure of re-election, I would challenge him here and now to resign and go to the country tomorrow and to test the temper of the people?" said Mr. St. Germain forcefully, but no reply was forthcoming from the government benches.

### LEST WE FORGET CLUB

At the Annual Meeting of the Lest We Forget Club held last Wednesday at the residence of Mrs. W. F. Puffer, the following officers were re-elected by acclamation: Mrs. Wilson Ritsen, President; Mrs. C. B. Halpin, Vice-Pres.; Mrs. W. Cranna, Secretary; Mrs. S. Edmunds, Treasurer; Mrs. Aldwinckle, Mrs. Reeves and Mrs. Davidson, Advisory Board.

A satisfactory report of the year's activities was read. It was a very quiet year.

In addition to the upkeep we were able to have the fence painted this year.

We have used money raised by the Sale of Poppies for local help to returned men. At this meeting \$10.00 was voted to a needy family with the promise of an infant's layette.

Decoration Day and Remembrance Day were both suitably observed as

well as the annual visit to the United Church at Armistice time.

Various gifts of flowers and fruit have been sent to the sick.

Mr. J. Finlayson was auditor again this year.

We have 21 members in good standing and expect to hear from others in the near future.

### LACOMBE AND DISTRICT NEWS

A very enjoyable evening was spent at the J. Peck home on Friday last. Mr. J. Peck is spending this week at the H. Gale home. (Don't we have fun).

Mr. J. Rinehart has returned to his home in the Milton district after being absent for a few days on business.

The Hill brothers have finished their wood sawing for the season.

George Johnstone and his brother Fred, have returned home after a short visit to Headley.

Mr. and Mrs. J. O. Todd were guests at the King Edward hotel, Edmonton, on their way to one of their homes in the North.

Mr. Jim Hill is cleaning his Spring grain.

### ALBERT HALL ELECTED

Albert Hall, sitting Councillor of Division 5, Municipality of Crown, No. 399, was returned to office in the Friday election, by a vote of 80. This is Mr. Hall's third term as Councillor, and completes the personnel of the Council the same as last year. The other candidate, David Hill, Jr., received a vote of 46.

### W.M.S. MEETING

It was decided, at the regular meeting of the W.M.S. held at the home of Mrs. Misener, on Tuesday last week, to hold the Easter Thank-offering meeting on Wednesday, March 28th, and to have program and the affiliation of the C.G.I.T. groups at this meeting. Mrs. Layton, Mrs. Sweet and Mrs. Gilmour were appointed to arrange a program.

Reports of Presbyterian meeting were given by Mrs. G. Ramsay and Mrs. Todd. Mrs. Dowling and Mrs. O. Young read a paper on the Associate Helpers department. An interesting account of the beginnings of the Missionary Society in the Presbyterian Church of Canada, up to the time of the three original societies in 1914 and again the union of the Congregational, Methodist and

Presbyterian societies in 1925, was given by Mrs. P. MacDonald.

The next meeting is to be held at the home of Mrs. Dowling.

### ARTS, ANTIQUES AND HANDICRAFT EXHIBIT

The exhibit will be held on Friday, March 2nd in the Church Hall from 10 a.m. until 6 p.m.

A few years ago Christy's of London sold three Steel Engravings by Robert Dodd, dated 1798. It was known that four copies had been made from the original plate, "The Battle of the Nile." Newspaper comment on the sale came to the attention of Mr. W. D. MacKenzie, who immediately communicated with Christy's about an engraving which had been in his family for generations. This engraving was verified as the fourth copy of the original "Battle of the Nile," and will be shown at the Exhibit.

Mr. MacKenzie has also very kindly consented to bring valuable old prints, brass candlesticks 250 years old, silver dated 1725, and engraved with the family crest, a chair brought from Scotland 1725, and a battle axe taken to Tahiti by Captain Cook on his first voyage there.

A valuable old flag of Scotland will decorate the wall. This has also been loaned by Mr. MacKenzie.

To see everything one should visit the Exhibit early, and be prepared to spend the afternoon.

An admission fee of 10c to see the Exhibit. A silver collection for the Tea.

### MARRIED

Amundson-Edeling

At 7:30 p.m. on Wednesday, Feb. 21st, there were united in Holy Matrimony by the Rector of St. Cyprrian's Church, Lacombe: Frieda Marie, daughter of Mr. and Mrs. Louis Edeling, of Bentley, and Ingvald Albert, son of Mr. and Mrs. Hans Amundson of Blackfalds.

The witnesses were Mr. Hector B. and Miss Helma Amundson, brother and sister of the groom.

The young couple, who have the best wishes of a very large circle of friends, will take up almost immediate residence at the farm home of the groom.

We are buying Oats and Barley at the Chop Mill. Glad to have you call when selling.

### ANOTHER OLD TIME CITIZEN DEAD

The death of Mr. Max Umbreit, an old time resident of the Lacombe district, occurred at his home near Tees on Monday last, after a long illness. He was in his 63rd year. The funeral was held on Monday last, interment being made in Lacombe cemetery, Revs. Madson and Freitag, officiating at the service.

Deceased came to Lacombe from Nebraska in 1900, and settled in Lacombe district, where he farmed for several years, later removing to the Woody Nook district, and after a few years came with his family to Lacombe to give his children school facilities. He leaves to mourn, besides his wife, one daughter, Grace at home; Mrs. H. Murray, Calgary, and Wesley Irwin, Vice-Principal of Balmoral School, Calgary. The sympathy of their many friends in town and country is extended to the bereaved family.

### EMBEZZLES \$40,000

Drumheller, Feb. 23.—Shortage of more than \$40,000 in the finances of the Municipal District of Bertawan, with offices in Sibbald, Alberta, almost on the border of Alberta and Saskatchewan, is believed to have been unearthed in the past few weeks in a probe which is being carried back for many years to determine the full extent of the alleged defalcation of Secretary-Treasurer William Lindlater, who, when the first irregularities were uncovered, left the district.

Principal irregularities are connected with road work accounts. The irregularities were discovered when the councillors appointed a new auditor, R.C.M.P. were called in to search the secretary's house where duplicate books were unearthed.

### GOOD PROFIT ON BOOZE

Edmonton, Feb. 23.—A net operating profit of \$1,300,389 for the fiscal period ended March 31, 1933, was shown in the annual report of the Alberta Liquor Control Board, just submitted to the legislature. Calgary led the way for the province with total store sales of \$804,105, while Edmonton was next with \$723,757.

Grace, infant daughter of Mr. and Mrs. Jno Graydon, is reported to be progressing favorably after a serious operation in Lacombe Hospital.

### DRIVER ESCAPES DEATH ON BLAZING TRUCK

Rimby, Alta., Feb. 24.—Burling suddenly into flames which in a few moments reached the gas tank and enveloped the big vehicle in a blazing inferno of fire, a heavy freight truck belonging to the Dench Cartage Company was totally destroyed by fire at a point five miles from here on Friday evening. Len Macstrom, driver of the truck had a narrow escape from being trapped in the cab, but managed to make his escape without serious injury.

The truck which was loaded with groceries and beer in carboys was on its way to Rimby from Lacombe. It is one of a regular fleet of freight trucks which is in operation in this territory and the truck and its contents were a total loss. Macstrom has no idea as to what started the fire, and the truck was fully ablaze before he noticed his serious predicament and jumped to safety.

### IDEALISM HAS BEEN DISCARDED

The U.F.A. political movement was conceived in a spirit of political righteousness and its membership nourished in the belief that it was not to be as other political parties are. It was to be a government of the people by the people. In the course of years, however, these high ideals appear to have been completely discarded. It has become as great a political machine as either of the old parties ever developed in their worst moments.

Confirmation is supplied by Omer St. Germain, until a few days ago the U.F.A. member for St. Albert. Here is what he said in House yesterday:

"The U.F.A. organization dominates, controls and governs the Government. Candidates are chosen, elected and directed by the U.F.A. body and the Government is the tool, the servant and the slave of the said body. I could not stand such a state of affairs any longer."

Members Miskew and St. Germain are performing excellent public service in exposing the falsity of the claims of the U.F.A. that it is a disinterested body inspired by the most altruistic principles. The thirteen-year-old political machine is beginning to creak audibly.

Green feed for sale. Apply Frank Bowtell, Lacombe.

## CENTRAL ALBERTA DAIRY POOL, LIMITED ALIX, ALBERTA

EXTRACTS FROM BALANCE SHEET SHOWING 9 years Results  
Cash Dividends Paid to Members ..... \$129,082.39

\$1.00 Shares to Members ..... 2,046.17  
Surplus Carried Forward ..... 6,241.40  
Total Net Result of 9 years ..... \$251,300.64

MEMBERS' ASSETS TO OPERATE THE BUSINESS—  
From Participation Reserve ..... \$74,096.61  
From Other Reserves ..... 45,114.50  
TOTAL ..... \$119,211.11

ASSETS USED AS FOLLOWS—  
Plant at Alix ..... \$59,535.11  
Plant at Vancouver ..... 4,223.01  
Supplies of All Kinds ..... 5,642.02  
Cash as Working Capital ..... 49,309.97  
TOTAL ..... \$119,211.11

There is no interest bearing debt of any kind.

Dairymen of Central Alberta, we respectfully ask you to study the above financial statement. This set-up shows the beginning of the 1934 accounting period, after providing the funds for 1933 dividends. On or before March 15 the Pool will mail to its loyal members 11½c per pound butterfat, in cash dividend and 11½c per pound butterfat in Participation Equity Reserve. A total of 3 cents per pound butterfat on 1933 cream. A total amount of \$39,225.78.

Total surplus for 1933 before Depreciation Reserve was \$40,826.03. You will note the Pool has benefitted its members over a quarter million dollars during the past nine years. To be exact the amount is \$251,300.64, and during this time the Pool has paid \$22,000.00 in interest on borrowed money, spent \$20,000.00 on organizing the Pool, and established a branch in Vancouver. Interest is now a thing of the past, and organization expense gradually being reduced. The earning capacity of the Pool will be even greater from now on. The equity reserve will gradually be redeemed to the members.

Remember, this is a farmers' creamery where all the profit goes to the members according to cream supplied, and not according to watered stock—there is none.

CENTRAL ALBERTA DAIRY POOL, LIMITED  
N. A. LARSEN, Manager

### WORTH SAVING FOR

To the traveller, Canada offers endless variety and the person who saves in order to explore it has a worthwhile objective. The most effective method of saving money is to follow a definite plan of deposits in a Savings Account at regular intervals.

J. S. McCormick, Lacombe, Alberta, Solicitor for the said Executors.

**NOTICE TO CREDITORS AND CLAIMANTS**

IN THE MATTER of the Estate of William Benjamin Gilbert, late of near the Village of Olive, Farmer, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims against the estate of the above named William Benjamin Gilbert, who died on or about the 24th day of December A.D. 1933 are required to file with the undersigned as Solicitor for the Executors of the Estate of the said deceased by the 5th day of April A.D. 1934 a full statement of their claims and of any securities held by them and that after that date the Executors will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to the knowledge of her Solicitor.

DATED this 15th day of February A.D. 1934.  
J. S. McCormick, Lacombe, Alberta, Solicitor for the said Executors

**NOTICE TO CREDITORS AND CLAIMANTS**

In the Estate of Elmina Calkins, deceased, late of Lacombe, Alberta, Married Woman.

Notice is hereby given that all persons having claims upon the Estate of the above named Elmina Calkins, who died on the 5th day of April, A.D. 1929, are required to file with the Manager of the MONTREAL TRUST COMPANY, 210 MacLeod Building, Edmonton, Alberta, by the 31st day of March, A.D. 1934, a full statement duly verified of their claims and of any securities held by them, and that after that date the Administrator will distribute the assets of the Deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to their knowledge.

Dated this 26th day of February, A.D. 1934.

J. S. McCOMBICK,  
Solicitor for MONTREAL TRUST COMPANY, the Administrator.

**Firemen Entertain**

On Tuesday evening, Feb. 27th, The Lacombe Firemen featured a new departure by holding a banquet, to which were invited Mayor E. H. Jones, members of the Town Council, Solicitor and Secretary, also members of the Fire Brigade from Ponoka and Red Deer. A Belcher, Manager of the Bank of Montreal, who is leaving town this week, was guest of honor.

G. T. Jackson, in his usual genial manner, presided over a very fine program, which included a toast to the Town by Max Friswell, reply by Mayor E. H. Jones, a toast to the Fire Department by Tom Wilkes, reply by Chief W. G. Sage, who gave a resume of the activities of the Fire Department since his connection with it. Chief Jack Farrell, of Ponoka also spoke. Highly complimentary remarks were paid the Lacombe Fire Department for their efficiency and for the fact that for two years ending March 6th, 1934, there has not been a single dollar of property loss through fire. A note of interest is that W. G. Sage and D. Hay have been connected with the Brigade since 1907 and Mr. Sage has been Chief since 1919. An entertaining musical program was also much enjoyed. Piano selections by L. D. Wright, solo by R. Rhind, a solo by Mr. Sweet of Ponoka, a duet by Messrs. Sweet and Stewart. A step dance and clog dance by Jack Richmond of Ponoka were all given hearty applause.

Proprietor Inskip of the Adelphi Hotel was congratulated on the excellence of the banquet provided.

A message of regret was received from Red Deer at the last moment saying their members were unable to attend.

**THE JOHNSON MEETINGS**

The series of lectures being carried on four nights a week in the Avalon Theatre have been drawing good audiences, growing larger from night to night.

In the opening lecture on the Bible Prof. Johnson said in part: "As we look about us we are thoroughly convinced that there is superhuman power controlling those things which man did not make, such as the stars and other heavenly bodies, and which man can not control. All the forces of nature indicate this same power, some call Providence, others Nature and still others, God. This power admitted it stands to reason that this power would issue a book of instruction to His Masterpiece—Man. How to recognize this book when we see it is quite a vital matter, said the Professor, and he proceeded to search through all the so called sacred writings of the various groups such as the Koran, the Vedas, etc., including the Hebrew Scriptures called The Bible."

The outstanding difference between the other so-called sacred writings and the Bible Mr. Johnson said was that the author of the Bible challenges others to foretell the future, and then proceeds to give "The end from the beginning" of World events, not only in one line of prophecy but in a dozen, beginning hundreds of years in the past and going through to the events of the closing of the age and the coming of the Messiah. This then, is the "acid test" of the Bible: the foretelling of the future. A test that no infidel or atheist can overthrow.

Prof. Johnson plans to give several of these lines from evening to evening and he says "You are welcome as you are."

**SPRUCVILLE NEWS**

There will be a Community card party in the hall on Wednesday evening, March 7th. Progressive 500 will be played. Everybody come as this is the one you have been looking for.

Mr. J. J. Kasha and family entertained a few of their neighbors last Wednesday evening.

Mr. and Mrs. Irvin Gottschlich gave a party to a number of their friends on Monday evening.

## I. O. D. E.

In celebration of Founder's Day, Lord Lasselles Chapter I.O.D.E. gathered at the home of Mrs. P. W. Pratt for the supper meeting, the Past Regents having been invited as guests of honor.

Mrs. H. M. Jones gave a most interesting account of events leading up to the founding of the Order, and of the life of Mrs. Clarke Murray who was responsible for its establishment on February 13th, 1900. On behalf of the local Chapter, Mrs. F. H. Reed presented Mrs. Pratt with a boudoir lamp, as a mark of appreciation of the members of the unremitting efforts of Mrs. Pratt to forward the work of the Chapter. Mrs. Pratt replied very fittingly, expressing her interest and enjoyment in the work.

Mrs. P. W. Pratt, upon being elected to leadership of the Lord Lasselles Chapter for her fifth term, addressed the members as follows, at their annual meeting.

"To the Officers and Members of Lord Lasselles Chapter I.O.D.E. In preparing this report for your consideration, I have endeavored to have it as brief as possible yet sufficiently comprehensive to give you a clear conception of chapter activities during my year as Regent.

"I appreciated very fully the honor you conferred upon me at the last annual meeting when you elected me for the fourth time to the highest office within the chapter. I said then I recognized the responsibilities I was assuming as your Regent and that I hoped proper wisdom and humility would be given me as might enable me to fulfill the duties of the office truly and justly and although some of my decisions may have been at variance yet, I constantly endeavored to solve all the difficulties of the year in what I considered to be a true spirit of a Daughter of the Empire.

Each year we lose a few of our members and this year was no exception. We shall miss them from our meetings and feel sorry that they could not stay with us, but on the other hand we are very glad to welcome some new members whose presence and help will aid us to realize

the importance of our organization, will encourage us to learn more about its ideals and thus enable us to become better citizens, for the true Daughter of the Empire is bound to be an ideal citizen, for the measure of our standard is faithfulness to true British tradition, honor to our King and flag, loyalty to our country and to the Empire.

Our activities this year have gone very smoothly, each Branch of our work doing its share. I feel that we are all proud of the Educational work accomplished and our Child Welfare work has not been behind in its activity. We have kept in touch with the League of Nations through our Convent as well as a little of the Empire study.

At the risk of being tiresome, may I mention a few of my own activities: I have been able to have two of the Chapter meetings at my home, and lend my cottage at the Lake for a tea, attend the Annual Provincial meeting in Calgary, the annual National meeting in Edmonton, the semi-annual Provincial meeting in Red Deer and have been a member of the Provincial Executive.

The Chapter Secretary resigned in June, so I took charge of the correspondence until a Secretary was appointed in October and then as our Educational Secretary sent in her resignation at the October meeting, I have since then carried on her work.

I made arrangements for and attended the presentation of the prizes at the school. I was unable to attend one meeting during the year, but the First Vice-Regent very ably presided. I was able to assist the convener of Child Welfare by driving her out in the country to visit a family that had been reported to us as needing our help.

For Armistice Day the Echoes Secretary and myself arranged to have an "In Memoriam" printed in The Western Globe.

Most of my time has been given to the Library, for being without an Educational Secretary, many of the routine duties fell to me, and I wish to heartily thank the members who have so co-operated with me in making the work the success it has been, and I am sure you will feel gratified as you listen to the report and realize just how much all our efforts

have accomplished. We feel we are filling a long-felt need in our town and doing something for the young by providing them with good reading matter.

In closing I wish to express my appreciation of our Secretary, who has been faithful to her duty and also to the members who have stood behind the officers and helped with suggestions and kept the activities moving. "After all, Prizes is the best diet for us all." It is my joy in life to find in every turning of the road, the strong arm of a comrade kind, to help me onward with my load, and since I have no gold to give, and love alone must make amends, my only prayer is while I live, God make me worthy of my friends, May the links which bind us all together become more firmly cemented as the years advance. Our prayer, our motto, our great heritage, and our tradition embody our ideals.

Let us ever remember that we are Daughters of that Empire which still stands firm as a great force for good. May I close again with the words of Sir Wilfrid Grenfell, "Another year has gone. God grant we are all grateful for its glorious opportunities of doing our bit and giving our best to its eternal records."

### AT THE AVALON MAE WEST IN "SHE DONE HIM WRONG"

Enough energy for at least four people was expended daily by slight 118 pound Mae West, spectacular Broadway stage star and writer, during the time she enjoyed in Hollywood, starring in "She Done Him Wrong" which show at the Avalon Theatre this week.

Because of her amazing versatility, which has brought her fame from numerous activities, Miss West made "She Done Him Wrong" practically a one-woman show. She collaborated in the writing of the screen play, wrote almost all the dialogue, and turned out the lyrics for the original musical score. She helped design the wardrobe and the sets as well.

Each morning Miss West climbed out of bed at 8 o'clock to do a bit of writing on her next novel. At eight, she was at the studio to apply make-up, and select costumes for the day's scene. Then, during the interval

## Special Interest To Farmers

Doctor Stevenson, Ontario Provincial Veterinary Recommends the following for a HOG WORM POWDER AND TONIC. It is also highly recommended by our Experimental Station.

Powdered Tobacco	30 parts	Iron Oxide	2 parts
Magnesium Sulphate	30 parts	Calomel	2 parts
Salt	20 parts	Powdered Chalk	2 parts
Iron Sulphate	12 parts	Arnicin	2 parts

We have it ready mixed and will supply with full directions.  
Price 35c. pound; 3 pounds \$1.00; 5 pounds \$1.50

THE CANADA STARCH CO. LIMITED, MONTREAL

during scenes all day, she hurried to her dressing room to work on a new play. At the end of the day's work, she viewed the "rushes" and critiqued them. Then, before leaving the studio, she rehearsed songs and dialogues for the following day's scenes. "She Done Him Wrong" is a lusty, roaring melodrama of the Bowery, where men are men and women are "on the make." Miss West is in the role of a beer-hall entertainer with a phobia for diamonds, which are supplied by devoted admirers.

This picture is not suitable for young children.

COMING — One of the finest musicals of the year, "Moonlight and

Pretzels," Mar. 8, 9 and 10.

"Fresh from the Gardens"

### Handicrafts In The West

Shortly after the conclusion of the World's Grain Show held at Regina last summer the question arose as to the uses to which the big quarter of a million dollar Grain Show building could be devoted, not only in connection with the annual provincial exhibition but throughout the year. Many suggestions were advanced, but few had any relation to the subject of the use to be made of the building in connection with the annual Provincial Exhibition, possibly because of the size of the structure, the great extent of floor space, and the difficulty in these recent years of finding necessary funds to promote any large development.

The writer now proposes to advance an idea for the consideration not only of the Regina Provincial Exhibition Board, but of people throughout the three prairie provinces. This idea is advanced because it is somewhat in keeping with the international character of the project for which the building was originally constructed; because it presents an opportunity to encourage and develop one aspect of our western life we are in danger of neglecting; and because it appears to be a feasible undertaking at the present time, and, in fact, may even provide a small source of income to many people who are in dire need of every cent they can earn.

The suggestion we advance is that this building erected to house grain and other exhibits of the nations of the world, or at least a portion of it, should continue to be utilized each year for the display of the handicrafts of the people of the many nations who constitute such a large proportion of the population of Western Canadian provinces. In other words, that the various racial and national groups throughout the West be invited, encouraged, even urged, to revive their handiwork on a larger scale than before and to exhibit the same, the understanding being that the exhibitors have the right to sell the goods they have placed on exhibit if they so desire.

What, we ask, could provide a more colorful, interesting and instructive exhibition than a continuous series of booths each devoted to the handicrafts of different national groups, presided over by men and women of each particular group, dressed in their national costumes?

Some years ago the C.P.R. sponsored the holding of exhibitions of handicrafts throughout Canada, and these were attended by thousands of interested visitors. In conjunction with such exhibitions, festivals and concerts featuring the music of different countries were held. Recently, at Regina, a highly successful folk festival and dance was held in which hundreds of citizens of non-English speaking nationalities participated, each providing their own orchestra or band.

The people of every nationality have some worthwhile contribution they can make to the upbuilding of this Canadian nation. These people have chosen Canada, yes, Western Canada, as their home; they are bringing their children up to be Canadians. They have a wealth of traditions, customs, and a bewildering array of handicrafts to contribute that will add richness to this young nation now in the making. They should be encouraged to make this contribution. It should be impressed upon them that they are welcome in Canada; that so far from asking or expecting them to forget their old homelands and traditions and customs and handicrafts of their native countries, we want them to add these as a contribution to the greater beauty and strength of Canada.

Why not, therefore, utilize at least a portion of the big World's Grain Show building to develop a little annual international exhibition put on by the people of many lands now resident in our midst on these Western plains? Let us have the flags of all nations waving again over booths filled with the arts and handicrafts of Germany, Poland, Norway, Sweden, Iceland, Belgium, Holland, Italy, Yugoslavia, Czechoslovakia, Rumania, Ukraine, Greece, Russia, Austria, Hungary. Let us include China and Japan, who have representatives in our midst. And the Irish, the Scotch, the Welsh should join their contributions with the English, and the French-Canadians to round out the whole.

At the World's Grain Show last summer there were a few of these handicraft exhibits, and they were most interesting although rather overshadowed by the magnitude of the show in other respects. But with one wing of the big building arranged in attractively decorated national booths, with exhibits of the arts and handicrafts of each nation on display, with national flags and national costumes, and all of which could be provided by and through people now resident in the prairie provinces, a use can be made of the Grain Show building which will return a dividend to Canada, not in cash perhaps, but in nation building. At the same time activity in national arts and handicrafts will be encouraged, these arts and skill in workmanship will not be lost, and in fact, a valuable and growing domestic market developed for hand-made products from many a hungry and needy home.

#### Swedish Sea Serpent

Sea Monster Disporting In Lake For Thirty Years & More

The sea monster disporting in the waters off British Columbia is not the only one of its species, numerous people in the province of Jentland, in northern Sweden, insist.

Accounts of the Canadian phenomenon have revived interest in the "Storjors monster," as it is usually called, which people by the hundreds have reported seeing for the past 30 years or more.

The animal is said to resemble a huge snake 30 to 35 feet long, of a brownish grey color, has big eyes and moves swiftly in the water. Once, residents reported, it followed a steamer almost across the entire lake and on another occasion was chased by two armed men in a boat. A Stockholm paper sent out an expedition in a fruitless effort to catch it.

#### Pitchblende Shipped Out

Nine hundred pounds of pitchblende concentrates were brought down from Great Bear Lake, by Pilot Matt Berry, Mackenzie Air Services, and shipped east by rail to La Bine brothers, radium refinery at Port Hope.

### Weary Days—Sleepless Nights

## Wrack the Nervous System

Men and women toss night after night on sleepless beds. Their eyes do not close as the refrains of their weary days repeat their weary nights. They are irritable and nervous, weak and worn out, and everything looks dark and gloomy.

Milburn's H. & N. Pills is the remedy that is required to restore them the blessing of good health. They bring back the sound refreshing sleep, tone up the nerves, and impart that sense of buoyancy to the spirits that is the result of renewed mental and physical vigor.

#### A Rare Brain Disease

Takes From Patient Ready Use Of His Memory

Pick's disease, a brain malady that takes from the patient the ready use of his memory, rather than the memory itself, has been reported from New Haven, Conn., by two Yale professors.

This disease, a rare affliction for which no cause has been found, was diagnosed in a living person by Dr. Eugen Kahn and Dr. Lloyd J. Thompson in the psychiatric clinic of the Yale University Institute of Human Relations.

Although the case was one of the first recorded in the medical literature of the United States, greater importance was attributed to the fact that it was diagnosed in a living person. Heretofore, almost all cases had not been recognized while the patient was living.

"It's not a new disease," Dr. Thompson said in an interview after reporting the diagnosis at the last meeting of the Yale Medical Society. "It was described in 1882 by the late Dr. Arnold Pick of Prague, Czechoslovakia. It is a rare disease. There have been only about seventy-five known cases of it."

"The cause is absolutely unknown," Dr. Thompson said, "but it is believed that observation of the case under care at Yale, as it developed, will be of aid in making clinical diagnoses."

Dr. Kahn wrote: "Pick's disease is a very rare malady characterized by atrophy of certain brain areas, leading to most profound deterioration of the mental abilities of the patient. It occurs in the present age and the etiology is unknown."

"In some brain diseases," Dr. Thompson explained, "you get a condition where things don't register—where a person will eat a meal and ten minutes later can't tell what he ate."

#### Cost Of Keeping Clean

Statistics Show Canadians Spend Enormous Sum For Soap

If indeed cleanliness is next to godliness, and if the people of Canada are as clean as the amount of money they expend each year on soaps, washing compounds and things of that kind would seem to indicate the Dominion should rank very high among the nations of the world.

That hard-working department, the Bureau of Statistics, at Ottawa, which keeps tab on all sorts of Canadian activities, and reduces them to masses of figures, has been checking up on what Canadians pay to keep themselves and their possessions clean and immaculate, and they have found the total for a year is an enormous figure.

The people of this country in 1932 used up no less than 29,097 tons of household and laundry soaps in bar form, at a total cost of \$3,874,522, and in addition they got rid of 11,385 tons of toilet soap, which represented an outlay almost equal to that on laundry soaps, or \$3,829,192 to be exact.

Other interesting expenditures in the same direction include 7,162 tons of soap powders at \$1,115,090; 13,889 tons of soap chips and flakes at \$2,108,412; castile soaps, 2,063 tons at \$373,097; shaving soap and cream, \$472,017; textile and soft soaps, 842 tons at \$119,019; nail soaps, 449 tons at \$84,184; other soaps, 573 tons at \$105,606; ammonia powder, \$150,951; javel water, \$408,589; hand cleaner, \$113,238; washing compounds, \$205,152; cleaning powder or pastes, \$665,547; and other cleaning preparations, \$99,589.

#### Object To Wax Models

"Effeminate" wax models for displaying uniforms in military tailor shops in Rome has aroused the ire of Fascist news, papers and officers, who demand that the "effeminate" figures be replaced by "more manly and less effeminate" models. One officer, writing in the newspaper Tribuna, said that "shop windows show officers with powdered hair, feminine figures, eyebrows and lashes of a Garbo and lovely carmine fingernails."

Wife—"John, I gave you this letter to mail a month ago and I just found it in your coat pocket!" Husband—"I remember! I took off the coat at the time to have you sew a button on it and it isn't sewed on yet!"

Claimed to be the largest in the world, a paper-making machine being made in Bury, England, will have a capacity of 1,000 tons of newspaper a week and will produce rolls 320 inches wide.

People in remote parts of Ireland are so poor that they cannot afford mirrors, one aged woman confessing that she had not seen herself since she was 17.

Out of a million eggs handled last year by dock workers at Brisbane, Australia, only one was broken.

It is estimated that 30 per cent. of the poverty in normal times is attributable to chronic illness.

## Evidence Leads To Belief That There Is A Gradual Recession Of The Ice Caps At The Earth's Poles

Science is at it again, this time taking away the reputation of the Arctic. That report is getting warmer. Not much, it is true, but give it time—geologic time, that is. Recently it was discovered that the Cornish glacier, in Greenland, which in 1894 was four hundred miles north of the Arctic Circle, is now about three-fifths of a mile farther forward. Further it was found that in tundra districts of our northernmost forest line is advancing at the rate of one mile a century.

However, it will be quite some time before skating will have to be abandoned, for there is a matter of five million square miles of ice at the Antarctic and 1,000,000 in the North, and, anyway, scientists give it a considered opinion that we are now living in the Quaternary ice age, which began about 600,000 years ago. They add, just in case there are some laymen who consider this ice at the poles and elsewhere as a settled earth policy, that there have been various ice ages and between times there are mild intervals which are measured by tens of millions of years.

When the ice melts it will mean a lot of increase in the oceans and perhaps in the lakes, and there is even danger that some sections of the earth will be completely submerged. But there is no need yet to build rafts. People dwelling in these parts, however, have no particular difficulty in looking forward for they have evidences all about them of times long before this geological age, in the old lake shores, in glacial remains, and in fossils that bespeak a time of vast greenness where the white silence of the North now reigns.—Winnipeg Free Press.

### A New Milking Apparatus

Inventor Secures Patents On Non-Spillable Milk Pail

The new sanitary, non-spillable milk pail which, according to its inventor, Charles O. Gaylor, 37, will have "Double" h-failed, was explained to newspaper men at Winnipeg. When friend coo feels the urge to spill the milk with a well placed kick, it will be just wasted effort, Gaylor said.

Patents on the invention have already been secured at Washington. Gaylor stated that the United States manufacturing firm considers the patents worth \$25,000 to him.

An inset chamber on top of the milk pail is the secret behind the revolutionary milking apparatus. After filling the chamber with water, Gaylor demonstrated the "holding power" of his pail by kicking it across the room. No water was spilled.

### Poultry On The Prairies

Nearly Half Of The Poultry Of Canada In Prairie Provinces

That the prairies are appreciating the poultry route is being recognized, says the Dominion Poultry Husbandman, for in three years the poultry population of the three prairie provinces increased over four million, and in 1931 nearly one half of Canada's poultry was upon the prairies. In the whole of Canada there is only one province—Ontario—that has more poultry than Saskatchewan and Alberta. Of the millions of bushels of grain consumed by poultry each year, nearly one half of it is fed in these three provinces. Saskatchewan alone has nearly as many head of poultry as the provinces of Prince Edward Island, British Columbia, and Quebec combined.

### Change In Viewpoint

British Is Leading The Way On The Road To Recovery

A "truly remarkable change in the Canadian view of England" was described at a political meeting by Sir Arthur Steel-Maitland, former Conservative minister of labor, who recently visited the Dominion.

"Four years ago Canadians regarded the old country with affection, but also with tolerance and pity, considering her a back number. Sir Arthur said, 'Today they regard her with pride and admiration, that with us the recovery has gone much further and is steadier and more certain than in any country—that we are leading the world out of the slump,' he added.

"Last week a grain of sand got into my wife's eye and she had to go to a doctor. It cost me ten shillings."

"That's nothing. Last week a fur coat got in my wife's eye and it cost me 100 guineas."

Tests recently made in London show that typists make as many as 50,000 key strokes in an ordinary business day.

An ancient well, 250 feet deep, has been found at Palmyra, Palestine, and is relieving the drought.

### Strictly American Drink

United States Was Originator Of Ice Cream Soda

In these days of alcoholic headlines Americans seem to have little to say about the ice cream soda. Perhaps they take it so thoroughly for granted that they are apt to forget the pleasant fact of its existence. But not so European. Out of his short visit crammed with talks whose import will write history, Mr. Lavinoff managed to purloin a minute for himself. This minute he spent in going to a drug store and ordering an ice cream soda. Similarly, when a well-known German actress arrived in the United States for the first time she demanded, not the new beer, but an ice cream soda. Doubtless long-fostered wishes lay behind the two orders.

The ice cream soda is a characteristically American product, along with baseball, skyscrapers, hot bladders, Sandwich game, Vermont maple sugar, Negro spirituals, rough-riding cowboys, and hooked rugs. As such, world neighbors know how to value it, and making its acquaintance is to them a part of the thrill of travel.—Christian Science Monitor.

### Prizes For Quality Bacon

Canadian Chambers Of Commerce Urged To Encourage Better Grade

Regina Board of Trade has put its shoulder behind the Canadian bacon hog policy and is offering a trophy for the best winter bacon litter from the Regina zone, and is offering prize money of \$50 added to the regular classification for the best group of three hogs at the Regina fall show and the champion boar and sow, if from the Regina zone. In addition to this they are suggesting to the Chambers of Commerce that there be united action by Boards of Trade for the bacon hog policy, and that each Board of Trade sponsor similar encouragement in its own locality.

By Ruth Rogers

A MOST INTERESTING SHOULDER TREATMENT MAKES THIS DRESS DISTINCTLY SMART

And it is as interesting at the back as it is at the front. The buttoned back closing adds youthful appeal. It's as snappy as can be in vivid rabbit's hair woolen mixture for school, college or town. Carried out in black satin or in lovely taupe shade falls crepe silk is lovely for afternoon.

Style No. 382 is designed in sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust.

Size 16 requires 3 1/2 yards of 36-inch material with 1/2 yard of 36-inch contrasting.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

### Queen Place To Get Ideas

Popular Song Writers Discovers One In Chastised Ad Column

Idea for songs come from strange and unexpected sources. An incident on a street corner; a sentence spoken in a crowded subway train; a story in a newspaper; anywhere, any place the inspiration may pop up. Song writers are alive to this, and keep their eyes and ears open for any new trend that they may capitalize in a song. Now you would hardly look for a song idea in the classified advertisements of a daily newspaper, would you? "There's gold in them thar ads," according to Charlie Tobias, writer of the new song bit "Throw Another Log on the Fire."

He was looking for a new apartment and took up the real estate section of a large New York newspaper. In reading the ads, he was impressed with one phrase that was always emphasized as being the important selling point. This phrase, appearing in ad after ad, was "wood-burning fireplace." Now, thought Tobias, what's the idea of a wood-burning fireplace in a modern steam-heated, oil-burning apartment house?

Then it flashed upon him in an instant. With all its conveniences and up-to-date doo-dahs it needed a fireplace to make it "home." Even the folks in the big cities like to throw another log on the fire to keep their golden memories aglow. It was new grist to the song writers' mill, and Tobias used it for the theme of what will likely prove his biggest song hit.

### Medium For Peace

League Of Nations Still Best Instrument To Prevent War

International co-operation through the League of Nations is the world's best medium for peace, declared Dr. R. C. Wallace, president of the University of Alberta, in a recent statement. The league was in existence. Its machinery was adequate but education was needed to enlist the co-operation of the nations.

Before the Great War nations endeavored to maintain peace by the balance of power. This method failed as did other makeshifts to humanize war, through treaty-signing. After the war the world tried a new system, that of collective action. The League of Nations was established to settle disputes by law and arbitration, but was handicapped through the refusal of the United States to join.

The machinery for world-wide peace was established, said Dr. Wallace, but education was needed to force its use. Revolutions must be faced—how could nations be assured of reasonable room for expansion and growth; how could they have equality; how could different standards of living and value be adjusted? These problems must be faced in the spirit of collective endeavor, on the other foundation can permanent peace be maintained.

### The Tournament Of Roses

Pasadena Celebrates It Every Year On January First

The Argonaut, San Francisco, says: "In spite of rain that spilled tons of water on the celebration, Pasadena's forty-fifth annual tournament of Roses on New Year's Day was viewed by a crowd of 200,000 persons. Led by Admiral William S. Sims, there were floats representing poetry, history and mythology of the sea; the frigate Constitution, Lorelei, the Magic Shell, Captain Kidd's treasure chest, Neptune, denizens of the deep sea and other fanciful portraiture; all of them constructed from millions of flowers and mounted on automobile bodies. San Francisco's entry was a flower model of the Golden Gate Bridge.

It is incredible to snowbound Americans fighting cold, winter and pneumonia that on the other side of the continent flowers are blooming with the lusty vigor that Eastern flowers know only in the spring. Whatever the time and the money expended in construction of this annual parade of floral beauty it must be counted well spent in the task of relating to the world that in California there is no "last rose of summer," but that the roses of last summer are still in bloom."

### London Planning World Fair

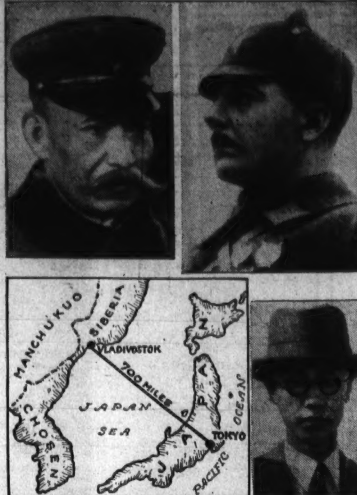

London may have a world fair of its own in 1936 if negotiations there begun are successful. The intention is to make the scene of the exposition the Crystal Palace, the vast glass-roofed structure originally built to house Prince Albert's great exhibition in Hyde Park in 1851. The Crystal Palace is only twenty minutes from the heart of the city, and the 200 acres of grounds around it would afford room for fair buildings.

### Could Use Seven Millions

British Columbia building requirements for provincial purposes alone in the next five years will be not less than \$7,000,000, an unofficial survey conducted at the legislative buildings revealed. No such program could be financed by the province unaided, however, it was stated.

Greater London now claims a population of 8,202,814.

### SPRING ATTACK BY JAPAN WILL FIND SOVIET READY

That war with Japan is regarded as almost inevitable this coming spring is indicated by reports reaching London that the Soviet Government is concentrating large supplies of food, munitions and aircraft at Vladivostok, the Russian seaport that is only 700 miles from Tokyo. Commander of War, Clemence Voronchikov, (top, right), is reported to have been utilizing the Trans-Siberian Railroad for many months for the transportation of men and munitions to the port that it is believed would be the first objective of a Japanese attack. Observers say the fact that may fire the magazine will be the coronation of Henry Fu-Yi (lower right), as emperor of the Japanese controlled state of Manchukuo on March 1. In announcing he would follow his father's predecessor, General Sadoo Araki, the new Japanese Minister of War, General Sanjuro Hayashi (top, left), is believed to have dispelled the hopes of peace that were born with Araki's resignation.

### Vitamin C In Apples

Study Shows Baldwin Is Rich In This Respect

The Massachusetts Experimental Station has recently started a study of the vitamin contents of the leading apples of the northeast.

Information on the Baldwin and McIntosh varieties has been published which shows that the Baldwin is a rich source of vitamin C, while the McIntosh supplies very little of this important food supplement. Spraying with lime sulphur and arsenate of lead had no effect on the vitamin content. Fresh cider from the Baldwin was found about one-half as valuable as the fruit itself, while pasteurized or benzonated cider lost practically all its value. Fresh apple sauce, both strained and unstrained, while lower than the juice in vitamins, was useful, but in canned apple sauce vitamin C is practically destroyed.

### Olive Growers Worried

Afraid Of From This Year's Crop Will Exceed Demand

Spanish olive growers predict a large surplus of olive oil from this year's crop, which is one of the largest in history. The 71,530 square miles of Spain which are covered with olive orchards will produce in excess of 1,000,000 tons of oil according to department of agriculture estimates. This is over 300,000 tons in excess of last year and nearly five times as much as five years ago.

Since the domestic consumption is hardly more than a quarter of a million tons, and since only about one-fourth of the excess can be exported, if the growers hope to show a legitimate profit the situation is causing much well founded worry to Spanish olive growers.

### Jury Fined For Verdict

Because they acquitted Thomas Cammarone on charges of running a numbers game, Philadelphia jurors were deprived of pay for their services. The jury fee for the ten men and two women amounted to \$21 each. "This is a miscarriage of justice," Judge Walsh remarked, "and a disgrace to yourselves, as well as to the community. Because of your outrageous verdict, I am going to discharge you from further service and fine you your whole pay."

For years after its establishment the London Times was looked upon as of less consequence than the printing house in London to which it was an adjunct.

Policeman: "It's going to be a bit of a job to catch 'im, Ma'am. I expect 'e's been 'is back in the Amazonian forests."—The Humorist, London.

## Graphic Description Is Given Of Conquest Of Mount Everest By Intrepid British Aviators

### England Fighting Potato Bug

Common Colorado Beetle Is Giving Farmers Considerable Trouble

The Colorado beetle or potato bug, which made its appearance in some parts of the United Kingdom this past summer and caused damage to the potato crops and led to a campaign being begun for its extermination, is still causing uneasiness.

It has not been disposed of by any means, and in preparation for next season's attack on the crops it is "digging itself in" in a manner that is somewhat upsetting to potato growers.

Tilbury, Essex, is the scene of the beetle's latest exploits, according to reports. While ministry of agriculture officials were sterilizing the soil near the docks, they found four beetles at a depth of two feet. The spot was near the allotment on which beetles were found in August following the discovery by a ministry official of a crushed beetle in the roadway.

Officials of the ministry have been at Tilbury for some time in connection with the matter. When the presence of the beetle is suspected, sporadic digging is carried out. If the hibernating insect is discovered, the whole adjoining land is fumigated with carbon disulphide, injected by a kind of glorified hypodermic syringe.

One of the men who has been fighting the beetle under the direction of the ministry said he had been occupied, off and on, since last August. "We found several specimens in different places," he said.

### Idea Worth Imitating

Rhode Island School Children Interested In Planting Trees

Rhode Island is experimenting with a novel reforestation plan which will have many imitators if public funds ever again become available for such things. It is an idea deserving to be on file for future use.

On five acres of land donated to the town the school children of West Greenwich are planting 4,500 trees donated by the State Forestry Association. An expert forester bosses the planting job.

There will be a new forest to be planted, children schooled in forestry and, the aims of reforestation brought home to an entire community. The school children will plant and cultivate their forest as they grow from insect enemies, and will go out into the world knowing more than their parents about trees.

With the constantly increasing importance of reforestation the school forest idea constitutes a practical contribution to rural education. Without involving a large expenditure of public funds it furnishes an opportunity for public spirited citizens to make a real contribution to their community and to posterity.

### Living Within One's Means

Nutrition Specialist Tells How Family Of Five Can Live Cheaply

Just an old-fashioned custom—living within one's means—but a University nutrition specialist shows how a family of five should do it—on \$5 a week.

Inez M. Hobart, university farm, said "that \$5 for such a family should be divided into five equal parts to be spent for goods to make up a balanced ration."

And here is the way she would do it:

Vegetables and fruits, \$1.20 (or less).  
Milk and cheese, \$1.30 (or more).  
Cereal, bread and beans, \$1 (or less).  
Butter, lard, bacon, sugar, molasses, tea, coffee, baking powder \$1 (or less).  
Meat, fish and eggs, \$1.50.

She even mentioned that a family "could grow fat" on that diet.

### Canadian Wall Paper

Exports Are High To Several Countries Including Japan

There must be a very large number of homes in the United Kingdom whose interior decoration is Canadian wall paper, for the export of that commodity to Great Britain is a large one every month. In December, for example, it was 55,000 rolls. The same may be said of Australia and New Zealand, whether 32,000 rolls went. Japan uses considerable Canadian wall paper and the fact that Italy does also—the country of all countries that appeals to us as a nation of artists—is testimony to the standard of that product of the Dominion. The December export was 90,838 rolls, compared with 66,788 in December, 1932. The 1933 export of 819,562 rolls was somewhat less than in 1932.

During a storm at Colchester, England, recently, 30 tons of hay was blown from a stack and landed on telegraph poles.

Although British aviators have conquered the roof of the world, soaring above Mount Everest in one of the most dangerous of earthly adventures, the 29,000 feet of towering rock in the lofty Himalayas will still lure daring men with a new challenge resulting from that intrepid conquest last April. Air Commodore P. F. M. Fellowes, D.S.O., A.D.C., told an audience of more than 1,000 at the Chateau Laurier, Ottawa.

Commodore Fellowes, who was leader of the Houston Mount Everest expedition which sent two British aeroplanes over the hitherto uncharted mountain, spoke under the joint auspices of the Canadian Geological Society and the Ottawa Women's Canadian Club at the only lecture he will give in Canada.

Pointing to a tiny black patch on the rugged side of Mount Everest as seen in a vertical photograph taken in the famous flight, Commodore Fellowes said geologists who had studied the spot had decided it must indicate a lake of hot water in a region of rock, ice and snow. This was indeed a lure to attract geologists in the future, to prove or disprove the geologist's theory.

Using a series of remarkable still photographs and several reels of motion pictures, Commodore Fellowes carried his audience along every step of the expedition, from the preparatory stages in England in November, 1932, to the return of the two planes after their successful flight over Everest on April 2.

Months were spent in studying weather conditions, ascertaining the last possible day on which a flight could be made with a possibility of seeing the mountain clear of clouds. Elaborate preparations were made to safeguard the personnel against the 50 below zero at 30,000 feet above sea level. Each man wore a heavily padded uniform, equipped with oxygen supply, a microphone for talking to his mates, and lined with electric wires for heat.

Observers, walled clad in this paraphernalia, which made a man feel as if he had pulled a heavy sack over his head, had to take pictures while standing in a 120-mile-an-hour wind, holding in their hands an 18-pound camera.

Factual difficulties were overcome through the co-operation of the Maharajah of Nepal, who gave permission for the expedition to fly over his little-known country. However, the aviators were scrupulous in obeying the instructions of the secretary of state for India not to fly anywhere into Tibet, there was absolutely necessary because of the fears of the people of that land over such sacrilege.

Commodore Fellowes summarized the reasons for the flight as the pleasure of a pleasant adventure, the desire to conquer the last of earth's great geological obstacles, and the need for a survey of the southern approaches to Everest, for international concern regarding aerial disturbances in the vicinity, and for some good pictures.

Some of the experts of the Canadian government department of agriculture are just now somewhat perplexed as to why the per capita consumption of lamb and mutton among Canadians is only about seven pounds compared with nearly 25 pounds of pork and over 56 pounds of beef. One of the reasons is that evidently Canadians are not fully aware that there is no better lamb or mutton in the world than is produced in Canada. Moreover lamb is recognized by the medical profession as one of the most nutritive and succulent of meats.

Just now it is cheaper than it has been for several years. Lamba offered to the meat trade in Canada are nearly all raised on tender grass and this, and the favourable climatic conditions of the North Temperate Zone, give the meat an incomparably fine flavour and quality.

In the past there has been a tendency to increase the production of sheep in the Dominion. There are about 3,700,000 in the country. In 1933 about 80,000 more lambs were marketed than in 1932. Every province raises sheep successfully, but the principal centres of the industry are Ontario, Quebec and Alberta.

Digging For Lost City

A group of men are digging in the heart of Los Angeles for a lost underground city of the "Lizard People." The shaft, down about 250 feet, the explorers believe, will lead to the "key room" of the city of calacas in which were stored the city records which legend says were written on tablets of gold.

After a drought of two years heavy rains are bringing prosperity to the sheep country in South Australia.

## New Ready-to-Wear for Spring 1934

New Swagger Suits      New Tailored Suits  
New Spring Hats      New Spring Coats  
New Spring Gloves      New Spring Shoes

### LACOMBE

## HORSE SALE

Tuesday, March 13th  
AT EXHIBITION GROUNDS  
200 Head of Heavy Draught  
and Agricultural Horses

In the above Sale there will be a nice lot of  
fitted horses to suit the Eastern Market, be-  
sides we expect several car-loads of well  
bred young horses for the local farmers.

This will be a good chance for our farm-  
ers to get good, well-bred young horses to  
replace the ones they have disposed of, and  
after working them a year, can again bring  
them to our Annual Sale.

We will still take entries for well fitted  
horses, as the demand is here, owing to sev-  
eral sales being cancelled this year.

Make this Annual Sale of Horses at  
Lacombe a Success by Assisting in Any Way  
You Can.

C. F. DAMRON, Auctioneer

Jack MacKenzie  
Pres.

J. M. Douglas  
Vice-Pres.

Jesse Fraser, Secretary

### BAPTIST CHURCH

Rev. J. O. Roskam, pastor of the  
Baptist Church at Ponoka, will preach  
on Sunday evening at 7:30.

Junior Service at 6:15. Story will  
be told by Rev. Mr. Roskam.

Sunday School at 11 a.m. — B. S.  
Cameron, Supr.

Senior B.Y.P.U. Monday at 8 p.m.  
Mrs. Sadie Sampson's Group will be  
in charge.

### C.C.F. TO DITCH LABOR

Toronto, Feb. 25.—The executive  
committee of the Ontario Association  
of Co-operative Commonwealth Fed-  
eration clubs has passed a unanimous  
resolution asking the national council  
to expel the entire labor section of  
the C.C.F. in Ontario.

The resolution was passed by the  
executive Saturday following receipt  
of a letter from J. S. Woodsworth,  
House of Commons Labor member  
for Winnipeg North Centre, and  
leader of the C.C.F. in Canada; A.  
A. Hays, Labor member for Wini-  
pigo North; Angus MacInnis, Vancou-  
ver South; Labor members for Ham-  
ilton East. The letter protested  
against alleged subversive activities  
of leaders of the Labor section of  
the C.C.F. in Ontario.

The resolution is the culmination  
of differences between Labor section  
of the C.C.F. and the conference and  
United Farmers of Ontario sections  
over the course which the organiza-  
tion should follow regarding various  
Communist activities.

### NINE DARTMOUTH

HANOVER, N.H., Feb. 25.—Nine  
Dartmouth students, all members of  
the Theta Chi fraternity, were killed  
here today by carbon monoxide gas  
poisoning while asleep in the frater-  
nity house.

The dead were:  
William S. Lorton, 20, of Celand  
Heights, O.

Edward F. Moldenke, 21, New  
York city.

William M. Smith, Jr., 21, Man-  
hasset, N.Y.

Edward M. Westworth, Jr., 21, Mt.  
Doron, Fla.

Americo S. De Masi, 21, Little  
Neck, N.Y.

Harold B. Watson, 21, Wilton,  
Maine.

Wilmet H. Schooley, 21, Middleton,  
N.Y.

John J. Griffin, 19, Wellingford,  
Conn.

Alfred H. Moldenke, 20, New York.

The deaths were discovered by the  
house janitor, Merton B. Little. He  
told police he visited the house during  
the morning to fix the furnace fire.  
He noticed, he said, that coal gas had  
caused an explosion which had blown  
open the furnace doors and discon-  
nected the pipe which led into the  
chimney.

### THE CHURCH OF ENGLAND

IN CANADA

Diocese of Calgary

St. Cyprian's Church, Lacombe

Rector: Rev. T. H. Chapman

Telephone 165

March 4th, 3rd, Sunday in Lent

10:00 a.m. Sunday School.
